

# The Syn248 phone system will simplify your communications

Plug and talk solution for small businesses offers incredible value

Designed specifically for SMBs, this do-it-yourself solution delivers traditional phone system functions, plus the industry leading features you need to stay ahead. Using two simple components—the SB35025 Corded Deskset and the SB35010 Analog Gateway, the Syn248 system can be expanded to support up to eight lines and 24 extensions.

**A Syn248™ Corded Deskset Phone System** Syn248™ phone system is a feature-rich communications solution without the cost or hassle of traditional PBXs. It supports up to 24 extensions and eight lines. Designed to meet the needs of small business owners, it is simple to install, simple to use and simple to manage. True plug-and-talk technology for today's "need-it-now" culture means there are no hassles, no headaches or no heavy equipment. User friendly, intuitive desksets feature large backlit displays that are context sensitive. Its small footprint makes it 1U rack mountable. Dual Ethernet ports on phones ensure no extra cabling. It also integrates with existing network without special wiring.
