

The World's Largest Selection of Ribbons!

The ribbon compatibility chart below lists, on the first line of each section, the machine manufacturer and model number(s) of printers, typewriters and financial machines. The first column on the left lists all manufacturers of ribbons available for those machines. The next column is the photo identification key. (Note: Ribbon photos should not be the sole determining factor when selecting a ribbon. Always refer to the chart under printer manufacturer and model.) Then comes the stock number, description,

quantity and price columns. For typewriter ribbons, a correction tape key column follows. See page 1370 for correction tape stock numbers and descriptions. Also, where relevant, a selection of available correction tapes for typewriters on a particular page are listed at the bottom of the page. Again, see page 1370 for additional tapes available. For additional ribbon selections, go to www.biggestbook.com. For calculator ribbons, see page 472.

Manufacturer	Key	ID No.	Description	Qty.	Unit	Price	Correction Tape Key
