17 IRN-TCX24L	Pink/Black	Large	PR	19.99

European Directives for Personal Protective Equipment

European Standard EN388 established the criteria necessary for rating all PPE items. Many of our hand protection offerings meet these standards – reflected with the CE logo – and have a 4-digit performance rating that measures abrasion, cut, tear and puncture resistance (ACTP).

A glove's overall performance score is indicated by four numbers that represent the four test criteria. The higher the number, the better the performance. Manufacturers may use an X to indicate not tested.

	Criteria	Rating
A	Abrasion Resistance	0-4
C	Blade Cut Resistance	0-5
T	Tear Resistance	0-4
P	Puncture Resistance	0-4
