E Dual Sensor Photo/Ion Smoke Alarm This smoke alarm provides continuous protection against smoke and fire hazards even during power outages. The dual ionization and photoelectric sensors offer the best protection against both fast flaming and slow smoldering fires. Smoke alarm comes complete with a Hush® feature which temporarily silences the alarm, a low battery warning and a loud 85 dB alarm, a test/reset button and a red LED light which flashes every 30-40 seconds to indicate that the smoke alarm is operating properly. Manufacturer's limited five-year warranty.

|--------|----------------|------------|
| 10 | KID-900-0102 * | EA 69.99 |

* UL Listed.

H Carbon Monoxide Alarm Battery-operated carbon monoxide (CO) alarm provides continuous monitoring of CO levels and will sound a loud warning signal if elevated CO levels are detected, even during power outages. Battery lockout system deters covering battery compartment without installation of batteries. Slide-out battery door cover gives immediate access to batteries. Test/reset button tests unit for proper operation and resets carbon monoxide alarm. Red LED will pulse and a loud alarm pattern will sound when a dangerous level of carbon monoxide is detected. Green LED flashes every 30 seconds, indicating unit is operating properly. Easy-to-install alarm is suitable for all living areas. Alerts user to replace CO alarm after seven years of operation. Quick-reference guide on inside cover of battery door. Manufacturer's limited five-year warranty.
