B AVR Series UPS Battery Backup System Designed to provide reliable battery backup that can keep a basic desktop PC operational for up to 45 minutes during blackouts and shutdown safely in case of a prolonged power outage. Automatic voltage regulation (AVR) corrects low-voltage conditions (brownouts) back to safe 120V power without draining the UPS battery. Surge suppression and EMI/RFI line noise filtering prevent hardware damage and poor-quality audio and video performance. Dateline surge protection. USB ports work with FREE unattended shutdown software. \$100,000 Ultimate Lifetime Insurance. Manufacturer's three-year warranty.
