F Conserve Surge Protector with Timer Limit power consumption at the workstation while eliminating wasted power with this automatic surge protector. Two always-on outlets keep power running at all times for essential computers, phones and clocks. Built-in timer automatically shuts off six auto-off outlets for devices not requiring constant power including lamps and monitors. Bright LED indicator displays outlet status and can be pressed when blinking to maintain power supply for an additional 11 hours. Manufacturer's limited lifetime warranty.
