

LATHEM TIME

A 800P Thermal Print Time Recorder An affordable, whisper quiet, compact time recorder featuring thermal printing technology. Automatically adjusts for Daylight Saving Time, and maintains its date, time and user preferences during power failures. Tru-Align™ allows single-handed operation and provides visual and audio direction, automatically triggers an imprint when a card is properly inserted, eliminating partial over-printing in adjacent cells that can make print unreadable. Steel tough® enclosure never needs opening—printer is clean and maintenance free, with no ink pad to fill or ribbon to replace. 6" × 3" × 5½". Manufacturer's one-year warranty.

B 1500E Wireless Atomic Time Recorder Using the same technology NASA employs to tell time, the Model 1500E wirelessly synchronizes with the National Institute of Standards and Technology's atomic clock in Boulder, Colorado. In addition to confirming the time daily, it automatically adjusts for daylight saving time. No wires, no worries and no more excuses for being late. Uses standard time cards or job cards. Never needs resetting; keeps time during power outages. Perpetual calendar until 2099; changes year, month and date automatically. Selectable automatic or manual activation. Choose from 18 preset print formats; 13 preset messages such as RCVD, SENT, IN, OUT. Prints in English, French, Spanish or Portuguese. Large LCD display shows date, time and day of week. Five-year memory backup. 6¾" × 7¼" × 5¼". Manufacturer's one-year warranty.
