

**A Performance Mouse MX** Track precisely on more surfaces, even glass tables, with this wireless mouse. Tiny Logitech® Unifying receiver stays in your notebook, so there's less worry about it being broken or lost. Flexible recharging system uses a micro USB cable to recharge your mouse through your computer or a standard wall outlet, even while you're using it. Hyper-fast scrolling lets you fly through long documents and web pages with a single spin of the nearly frictionless scroll wheel. Mouse's sculpted, right-handed shape guides your hand to a naturally poised position and places integrated controls for web browsing, application switching and photo viewing within your thumb's reach. Batteries Included. Compatible with Mac® OS X; Windows® XP, Vista™, 7, 8. 3¼" w × 5" d × 1¼" h. Manufacturer's limited three-year warranty.

**B M705 Marathon Wireless Laser Mouse** Click and scroll for longer with this wireless laser mouse that runs for up to three years before having to replace batteries. Tiny Unifying receiver stays in your notebook, so there's less worry of it being broken or lost. Laser tracking delivers smooth, responsive cursor control, even on polished or wood-grain tables. Sculpted shape guides your hand to a naturally comfortable position and places customizable controls within your reach. Hyper-fast scrolling lets you fly through long documents and web pages with a single spin of the metal scroll wheel. Batteries Included. Compatible with Mac® OS X 10.4 and Later; Windows® XP, Vista™, 7, 8. 2¼" w × 4¼" d × 1½" h. Manufacturer's limited three-year warranty.

## Optical or laser?

**Optical** An optical sensor has no moving parts like a traditional mechanical or "ball" mouse.

This allows for easy and precise tracking for all users.

**Laser** The laser sensor provides an additional level of precision useful for heavy users of spreadsheets or graphic designers. It works on all surfaces, including glass desktops.
